

H125

Capacity

75 lb. Fish Food | 125 lb. Deer Corn

Clear Internals
With easy release for
easy clearing and cleaning

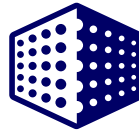

Rustproof

We pioneered the use high strength aluminum in our feeders meaning it will never rust

Feather Light

Our aluminum body cuts the weight of our feeder in half compared to our competitors meaning it's easier to install, clean, and move

Powder Coated

We powder coat our feeders to ensure that they can stand up to the worst that mother nature throws at them

Vari-Tilt Base

Our fully adjustable base can be mounted on either banks or docks without having to change legs between two different styles

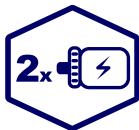

Rounded Corners

Eliminates the chance of accidentally puncturing feed bags when filling the feeder

High Velocity Blower

Our high velocity blower sprays feed in an arc that's 45' long and 25' wide at it's widest

Dual Motor

Delivers a metered feed rate that helps prevent clogs, waste, and vermin infestations

Solar Panel

We include a solar panel at no additional cost saving you unnecessary trips to change out feeder batteries
